## **How to Determine Retail Food Establishment – Serving Meals: License Complexity Category**

**Check all statements that apply**

Retail food establishments - serving meals are placed into four categories based on food safety risks. A retail food establishment serving meals that are prepackaged and TCS only prepares individually wrapped, single food servings, which are packaged off-premises by a licensed processor, with the on premise activity limited to heating and serving. EXAMPLE – whole frozen pizzas.

The other three categories (simple, moderate, and complex) use a point system to determine the license complexity category. Use the checklist below to calculate your license complexity category.

- \_\_\_ Establishment has a self-service salad bar or food bar. Does not include condiments, bakery or toppings. (1 point)
- \_\_\_ Establishment processes fresh or frozen raw poultry, meat, seafood, or eggs. (1 point)
- \_\_\_ Establishment operates using a variance or HACCP plan. (1 point)
- \_\_\_ Establishment operates using a Bare Hand Contact or Time as a Public Health Control Plan. (1 point)
- \_\_\_ Establishment offers catering or preordered meals in bulk quantity for events. (1 point)
- \_\_\_ Establishment cold holds, hot holds, or reheats time/temperature control for safety (TCS) foods. (1 point)
- \_\_\_ Establishment does cooling of cooked or reheated time/temperature control for safety (TCS) foods. (1 point)
- \_\_\_ Establishment wholesales foods that requires refrigeration. (1 point)
- \_\_\_ Establishment chops, dices, mixes, slices, blanches, boils, cooks, packages, or assembles product. (1 point)
- \_\_\_ Establishment has an additional area(s), other than the main kitchen, where food preparation activities occur. (1 point)
- \_\_\_ Establishment prepares food specifically for a highly susceptible population, such as a nursing home or day care. (1 point)
- \_\_\_ Establishment has a customer seating capacity greater than 75, or has a drive-thru window. (1 point)

**\*NOTE:** A facility that has been ordered closed, or been linked statistically to a food borne illness, is immediately placed in the COMPLEX category for the current and following license year.
