The favorable weather conditions and snowfall this year allowed for many more patrol hours as compared to the year prior. There were few trespassing complaints reported as being investigated by deputies, but any enforcement action taken would not be reported as part of the snowmobile patrol program.

Wisconsin DNR Conservation Wardens also patrolled Wood County as a result of the busier season this year. Conservation wardens do partner with deputies occasionally on these patrols.

The purpose of the snowmobile patrol is not to issue citations, but to promote the safe and legal use of the trails for everyone.

Respectfully submitted,

Joseph M. Zurfluh

WOOD COUNTY SHERIFF'S DEPARTMENT

SHAWN BECKER, SHERIFF

JAIL UPDATES

1. Inmate Population
 - a. 115 in house/260 total inmates with safe keepers
 - b. 2019=235 yearly average (2018 yearly average 225)
 - i. Wood County has implemented the use of boat beds due to overcrowding
 - ii. The additional 25 safe keepers beds are filled
 - iii. Adams County can no longer take female inmates due to their overcrowding
 - iv. Start contacting other counties for space availability
 - v. Reviewing logistics of another location (one additional vehicle/one fulltime officer)
2. We need to consider a contract for additional 25 safe keepers
3. Jail Sergeant positions (past position Lead Correction) two have been promoted and we are in the process for the remaining two
4. With the recent resignation of Laura Grode (took position at Mill) we just hired Courtney Devine, so we are again at full staff
5. Recently Maintenance made an upgrade to our Holding Cells to allow power access for medical devices (hole drilled in walls.) This will allow us to plug in devices without stringing extension cords down the hallways. We are still looking into option to add power to cellblocks; however it is not as easily done. Power in these locations will require some major upgrades or the replacement of our operating systems.
6. Camera system in jail. I have expended each system (have two systems) 27 TB (total 54.50 TB space) this give us about 50 days of video storage. Our current video system is limited and cannot be expanded any further as the operating system can only support a maximum of 4 TB per drive (eight drives per unit)
7. In speaking with Maintenance the Jail mechanicals (air handlers /HVAC) are due for service and replacement. Nothing has been set yet; however we are looking at approximately one million over the next five years.)
8. Professional Services: We recently moved some offices around the inside of the jail. EMP is up front and Mental Health has moved to the old EMP office. WE have had multiple additional requests to add services for inmates, but have not been able to add the volunteer organizations due to space. (Conference rooms/library)

3-27,30,4-1; WR6376 Welfare check on 15+ cats and sanitation concerns @ 2800 block of 3rd Avenue South. There was not enough food nor litter boxes. I bought & delivered a 22 pound bag of cat food and cat litter to hold them over until the Humane Society has room to take them all in, as they will be surrendered. WR 18, 18, 22

3-28 PE432 Open case-regarding aggressive dogs, improper confinement 22

3-29, 31; WC4904 A dog was bit by a muskrat, owners killed the muskrat and wanted to know what had to be done at this point. I explained that any animal that is muskrat-size or larger can be a carrier of the Rabies virus. The dog, which was current on rabies vaccinations, was sent to the vet for a booster rabies vaccination and either the dog is in quarantine for 60 days, or the dog's owner can bring the muskrat to the vet to be prepared to be sent to Madison for rabies testing. Then if the muskrat is not infected with the Rabies virus the dog will not be required to be quarantined. I spoke with Nancy E. of the Wood County Health Department and she okayed the vet sending the muskrat's head to Madison for testing. 44, 30

3-30, 4-1; WC4994 Dog bite @ 400 block of Magee Street Marshfield-Child was visiting friends when the friend's family dog lunged at her and bit her on the nose. The bite was unprovoked. Owners will put the pit bull down after the ten day quarantine period. 92, 92

3-31; WC1474 Welfare check, issue an Order of Abatement @ Milladore 62

4-1; WC5023 Consulted with law enforcement regarding possible removal of a puppy of suspected mistreatment- Send impoundment and surrender forms. Puppy's owner is to address all sanitation concerns and obtain; at her expense she needs to obtain a welfare exam with a veterinarian and get Rabies shots for her puppy. I will follow up on vet check. Open case 0

4-1, 2; WR6698 Dog bite to a child that was visiting at the neighbors-the neighbor's pit bull bit her in the arm, which did not require stitches. 18, 18
